

Garbage and Trash Pickup

Curbside Set-Out Guide

Garbage: Monday and Thursday

(on the street by 5:30 a.m. and removed by end of day)

Trash and Recycling: Thursday Only

(on the street by 5:00 a.m. and removed by end of day)

No household hazardous waste (paint, chemicals, thinner, batteries, electronics)

Cart lids must be closed. Overflowing carts will not be collected. Move vehicles off the street on collection day.

Carts – your carts (garbage and recycling) have a serial number on them. Each address has a cart “assigned” to it. This helps you keep up with your cart, and helps locate lost or stolen carts and return them to their proper homes. Write your serial numbers down and keep them in a safe place. If your cart is lost, damaged, or stolen, you will need the serial number for reporting purposes.

Recycling collection day (Thursdays), place the cart at the curb the night before or no later than 5:00 a.m. The cart handle should face your house. Keep at least 3 feet between your recycling cart, garbage cart, trash pile, and bulky recyclables, and make sure the piles/carts are clear of parked vehicles, mailboxes, power lines or other obstructions. Remove your cart after collection.
